Claims 8 and 9 are mine. They would go in 106/31.43. Claims 12 and 13 would belong to 428 since the ink jet material would control over the ink composition, although there would be a search in 106 because of the ink comp. Hope that helps.

Would you check if claims 8, 9, 12 and 13 are best examined in your AU?  
Thank You!
